Heating Problem Solved For Houses, Stores, Offices The 'Miracle' Gas r urnace

Complete, Ready for Heating We Charge Extra for Pipe Used.

Absolutely guaranteed against giving the least sign of dust, fume, odor or sweating on walls or ceilings. or money refunded.

Its a great little furnace—The Miracle—to heat houses and stores. Does the work of any \$50.00 heater and on half the gas. Scientific principles have made it the most complete and efficient furnace on the market. Only the gas from an ordinary illuminating gastip furnishes the great heat. Perforated partitions thoroughly mix gas and air. When lighted at top ofmixer the flame gives a pretty blue heat with PER-FECT COMPUSTION

It is bung by four wires from ceiling in cellar, and attached directly to register in floor above. On holding a lighted match to top of mixer, and turn on the gas, a strong heat will IMMEDIATELY flow from the register. On opening the doors leading to adjacent rooms, the whole house will soon be comfortable.

It's no experiment. For eight years it has been successfully used in and about Pitisburg. One owner is still using a furnace purchased seven years ago, and last fall its condition was so good that

he wouldn't trade for a new one. No \$50 furnace on the market can beat the Miracle for results nor compare with it in low expense of on

eration. All the gas necessary is supplied by an ordinary illuminating tip. REMEMBER-Costs Only \$18.00 and can be installed without inconvenience to the household. Complete With Register.

IFTEEN CONVINCING ARGUMENTS.

"THE MIRACLE" FURNACE. 1. Will reduce gas bills amazingly. Burns about 10 cents worth in a day of Natural Gas at 25 cents a thousand

Creates no dampness on walls or ceilings. Has no place to confine gas for an explosion.

Has no partitions to distill dampness from the gas.

If doors are opened, will heat both halls and rooms.

Furnishes a marvelous amount of heat at small expense. Is so cheap that winter comforts are within reach of rich and poor alike.

Is arranged to give a strong, steady flow of pure, vitalized air, warmed to summer heat.

Does not remove oxygen from the air by combustion, but leaves the heated air full of energy and invigoration.

Does not cause parched lips, dry skin, nor headache, so often accompanying the use of gas stores. grates and heaters.

12. By giving uniform heat throughout house, protects against sickness, so often started by sudden changes of temperature due to turning up and shutting off of grates and stoves, or from moving from proximity of a fire to a chilly ball.

.Having burner set in center of a 14-inch cylinder, obviates danger of fire reaching anything combustible, ESPECIALLY THE CLOTHING OF YOUNG CHILDREN. 14 absolutely free from DUST or FUMES, WE TAKE BACK THE FURNACE IF THIS IS NOT SO.

The Burlington railroad promptly paid the fines imposed on its officials by the United States court for rebating as well as the fines imposed on the railroad company itself. Does, anyone believe that this kind of punishment will make railroad officials obey the law, if it is to the interest of the railroad company to break it?

The growth of the sentiment amongst the voters of the country for the election of members of the United States senate by the people is indicated by the fact that twelve of the new senators who will be elected were nominated by the voters at the primaries. Columbus, O., Dec. 13,-in the case of James W. Bakersfield, Cal., Dec. 13.-A very affectionate friend of the late Maj. Gen. William R. Shafter survives here. It is his well-known old war horse Bill. The horse is still living at the age of 17 years, and is owned by Capt. W. H. McKittrick, the son-in-law of the late general, at whose ranch he died. Bili is a large, handsome bay horse, with a beautiful white star in his forehead, and possesses more than the usual amount of horse intelligence.

Gen. Shafter took Bill with him in the Spanish-American war and rode him at the famous battle of Santiago. Bill continued in the possession of the general until he was retired in 1899, when Capt, McKittrick took him to his ranch. Gen. Shafter and his old war horse

became inseparable friends at the Mc-Kittrick ranch, although the horse was never ridden after he had come home from his military service. Bill, by reason of his honorable career, was given the best of treatment and received the choicest food and was not compelled to do any work at all. The torse will be permitted to end his days at the ranch in peace and comfort. It is not believed he win survive
